10. The 111% Bonus is not able to be withdrawn until completion of the Deposit Bonus requirements. However, there is no limit on withdrawing the profits while the Deposit Bonus is enabled.
11. Profits withdrawn prior to the completion of the Deposit Bonus requirements will reduce the equivalent amount in withdrawn profits from the bonus volume requirement that have been accrued to that point.
12. **The 111% deposit bonus trading requirements**
 - ▶ For every four (4) USD/GBP/EUR of bonus added to your account, you will be required to trade one (1) Lot.
 - ▶ Upon the completion of the above trading requirements, you will then be able to withdraw the bonus from your client area.
 - ▶ Lots will only be applied that are held for at least three (3) minutes (your applied trading volume total will be available in your client area).

Trading Requirements, Practical Example:

- ▶ Client deposits 1000EUR, 1110EUR Bonus added to client area (not able to be used for trading purposes).
- ▶ Client will then complete one (1) lot for every four (4) EUR of the bonus amount, in this case totalling 277.5 lots.
- ▶ Once the client completes the 277.5 lots, the 1110EUR bonus will automatically be released from their client area to their trading account.

Early Withdrawal of profits, practical example:

- ▶ Client has 1110EUR Bonus as per above, they have to date completed 200 lots, which have been traded on a combination of Forex and Metals.
- ▶ In this case, their accrued bonus trading requirements have reached 800EUR (200 lots x 4EUR).
- ▶ They have also accumulated a profit of 800EUR during this time. The customer has requested and completed a withdrawal of the 800EUR of profits.
- ▶ This early profit withdrawal will now restart the customers Bonus Trading Requirements as the Profit withdrawn is subtracted from the bonus trading requirements accrued to date. (800EUR or 200 lots Bonus Requirements accrued – 800EUR early profits withdrawn = back to zero bonus requirements completed).

Re-deposit to bonus trading account, practical example:

- ▶ The client has a 1110EUR Bonus as per above, they have to date completed 200 lots, which have been traded on a combination of Forex and Metals.
- ▶ In this case their accrued bonus trading requirements have reached 800EUR (200 lots x 4EUR) for the trading account they have deposited to.
- ▶ The customer now is requesting a re-deposit to their trading account of the 800EUR.
- ▶ This re-deposit will now impact both the customers' Bonus amount and their Bonus Trading Requirements.
- ▶ The 111% of the re-deposited amount of 800EUR will be added to the client area bonus, taking the bonus amount from 888EUR to 1998EUR.
- ▶ The re-deposited amount 800EUR will also result in additional bonus trading requirements, a further 200lots will be add. 277.5 lots are required to achieve the new bonus amount.
